Nanlin has an extensive background in semiconductor, electric circuit, video coding, telecommunication, and artificial intelligence.

Previous Work

Prior to joining ArentFox Schiff, Nanlin was a Technical Advisor at an intellectual property law firm in Alexandria, Virginia, where he drafted new patent applications and office action responses in the fields of semiconductor, video coding, telecommunication, artificial intelligence, and mechanics. Nanlin was a Senior Engineer of Semiconductor Process Integration at a global technology company for ten years. He was also a member of the technical staff at a global semiconductor foundry. In those roles, Nanlin earned recognitions for his outstanding technical contributions.
